- The Anni Bergman Parent-Infant Program (ABPIP) has sponsored MEETINGS with invited speakers on specific topics, OPEN TO PROFESSIONALS WORKING WITH PARENTS AND INFANTS in the wider New York City area.

C) IN THE COMMUNITY

SEMINARS, CONFERENCES, SUPERVISIONS FOR OTHER INSTITUTIONS

- Over the past twelve years, a group of clinicians at the Institute for Psychoanalytic Training and Research (IPTAR) has been developing AND REFINING A PSYCHOANALYTICALLY INFORMED MODEL for working with a range of inner-city children who struggle with complex histories of trauma and loss - range in age from kindergarten through twelfth grade. Some require special education, while others are intellectually gifted.
- We offer PSYCHODYNAMICALLY ORIENTED INDIVIDUAL AND GROUP THERAPY ON-SITE DURING THE SCHOOL DAY, tailored to the needs of each school and its students. Therapists integrate treatment, available at whatever frequency is clinically indicated, with regular consultations with parents, teachers, and administrators. Each school has a site supervisor, an IPTAR graduate, who works with the educational staff to design and evaluate programs. Over the years, in addition to our regular clinical services, we have run groups for parents, teachers and for pregnant or parenting adolescents. Since 2002 we have treated over 700 students and provided training to 124 therapists. In 2013, the IPTAR On-Site School Program was awarded the American Psychoanalytic Association’s Educational Achievement Award, which honors outstanding psychoanalytically informed work with educators and schools.
- For the last four years, the Anni Bergman Parent-Infant Program (ABPIP) has provided WEEKLY HOME-BASED DYADIC PSYCHOTHERAPY TO PARENTS AND THEIR INFANTS AND CHILDREN under the age of three living in homeless shelters, and to parents and children at foster-care agencies who are in the process of reunification. Therapists are analysts and also graduates of the ABPIP.
- The Anni Bergman Parent Infant Program (ABPIP) developed a 7-WEEK SEMINAR IN INFANT OBSERVATION using video material of a mother-baby dyad over the first year of the baby’s life. Participants in the seminar have been professionals working in agencies that serve at-risk families, trainees at other psychoanalytic institutes, and centers for mothers and babies.

GROUPS AND SEMINARS HELD IN THE CENTRES FOR OTHER PROFESSIONALS AND PARENTS

- REGULAR TUESDAY EVENING PRESENTATIONS. Members of the faculty present papers. The presentation is then followed by a formal discussion and an open discussion among members attending the meeting. These groups are open to the professional community and are well attended by mental health professionals as well as by professionals from other disciplines.
- We occasionally SPONSOR A DAY OR WEEKEND LONG CONFERENCE. Again these programs are well attended by professionals and members of the community who have an interest in the program.

** We have not offered programs specifically for parents although that idea has certainly been raised from time to time and is an activity which most individuals support.*

C) IN THE COMMUNITY

SEMINARS, CONFERENCES, SUPERVISIONS FOR OTHER INSTITUTIONS

- EVENTS ORGANIZATION AND HOSTING for the larger neighborhood community
 - ♦ occasional Friday evening movie and dinner which is both a pleasant social event and an opportunity to consider a movie's theme from an analytical perspective.
 - ♦ occasional art show sponsored by the Institute. The show includes artworks made by members of the Institute, not only visual arts but other kinds of art including jewelry, sculpture, ceramics and poetry, for example.
- Our faculty participate in TEACHING COURSES AT OTHER INSTITUTES, particularly courses on child therapy and child analysis. Instructors for these courses are in demand as we have a limited number of child analysts in the community.
- SUPERVISION OF THERAPISTS AND ANALYSTS IN THE COMMUNITY.
- We have a low fee clinic with members of the Institute providing LOW FEE ANALYSIS AND PSYCHOTHERAPY.

C) IN THE COMMUNITY

SEMINARS, CONFERENCES, SUPERVISIONS FOR OTHER INSTITUTIONS

- Our association members regularly conduct PSYCHOANALYTIC SUPERVISIONS AT VARIOUS SCHOOLS in Istanbul. These studies are mostly carried out with school guidance services. Studies have started with teachers and school principals in recent years and they are in great demand. Seminars are also organized for parents on various subjects.
- In previous years, studies were carried out with physicians (paediatric diseases, infertility specialists, etc.) in hospitals. However, we do not have current work in this field.

D) SCIENTIFIC PROGRAMME

- Three SCIENTIFIC MEETINGS are organized in the field of children and adolescent psychoanalysis within our association every year. These congresses, which is named “DISCUSSIONS ON YOUTH” for 21 years and “CHILD PSYCHOANALYSIS DAYS” for 17 years, last for two days and enable us to host many local and foreign guests.
- Our third meeting is named “SCHOOL AND PSYCHOANALYSIS”. Subjects related to school-time experiences such as “graduation, being in a boarding school, etc.” are discussed together with mental health professionals who work at schools in this congress. This event completed its 13th year.
