

The Australian Psychoanalytical Society invites you to its 2015 Member and Open Day Conference

A Treatment for our times:

Contemporary psychoanalysis and serious mental disorders

The Open Day Conference will address the question of who is available and equipped to help patients with serious mental health problems, which require specialist ongoing treatment. The Conference will be a day of clinically focussed case presentations and cutting edge theoretical ideas applied to patients with serious mental disorders including severe personality disorder and perversion.

International guest speaker and 2015 visiting psychoanalyst, Professor Rudi Vermote (from the Belgium Psychoanalytical Society), will be joined by psychoanalysts from the Australian Society to present a clinically rich and stimulating day that will serve to stretch your mind and leave you with much to consider applying to your clinical practice.

The Conference will be held in the comfortable surroundings of the Royal Automobile Club of Victoria (Collins Street, Melbourne) where accommodation and parking are available. The catering of the Club is of a high standard and all dietary requests will be honoured.

For further information, contact Dr Timothy Keogh, Chair of the Organising Committee, timothykeogh@bigpond.com for more details. (A full brochure will be available in February of 2015.)
