14.00-17.00 – Clinical Group – case presentation by Sorin Mocanu (senior candidate), coordinated by Leda Herrmann

**Supplimentary subjects/themes discussed :**

a. The psychoanalytic perspective of BSP-Sao Paolo Institute toward the contemporary theories and clinical/technical practices, especially the theory of the field, an analytic and methodologic perspective conceived by Fabio Herrmann, and continued by Leda Herrmann

b. The training of the candidates in BSP- Sao Paolo Institute, how does Sao Paolo Institute is functioning, the selection criteria of accepting the candidates, the criteria for becoming full member, training analyst, the setting of the assesment etc.

c. The new paradigms and theories in the BSP-Sao Paolo related to the fundamental/classic psychoanalysis and other schools, especially the contribuiton (theoretical, technical and ethical) of the “third generation” of analysts after Sigmund Freud

d. Presentations of clinical cases by invitee/speaker and by Romanian analysts/candidates – very rich and very interactive, thought from the perspective of the “theory of the field” in psychoanalysis (interpretation, method, technique, vortex, the rupture of the field, the patient fields, the analyst fields, the field of the transference etc.)

Bucharest, 4<sup>th</sup> October 2014
